

Central West Self-Management Program Health Care Provider Professional Development August 2017 – March 2018

Choices and Changes is a half day workshop designed to help clinicians become more effective in supporting clients on their journey to improve lifestyle choices and self-management of their chronic conditions. The workshop consists of mini-lectures, interactive exercises, videotaped case studies and skill practice with peers to provide clinicians with **specific and efficient communication strategies** that can be utilized to support client-centered care. At the end of the workshop, participants will be able to:

- Identify strategies to assess an individual’s motivation and readiness for change
- Learn skills and techniques to help influence client behaviour

Brief Action Planning (BAP) is offered as a half day workshop followed by a 1 hour Practice and Feedback session. BAP is a tool composed of a series of **3 questions and 5 skills** used to **facilitate patient goal setting and action planning** within the limited time available for appointments and interventions. BAP is designed to help patients experiencing ambivalence and/or low confidence to set achievable action plans.
